- ACTION: Colette will look into accident data, see if there's anything to be learned from Iron Horse Trail crossings

ACTION: Carly & Emily will work with Patti to get a blog post [re: BP lights]

g. 152 Shanley: first tax sale didn't go through, can now be sold for less than the taxes (~\$1 million). Currently access is not allowed, though several years ago it was open to be viewed. Also it's a heritage building, so designation might be a turn-off for buyers, brownfield initiatives weren't well-publicized.

h. WRPS has a survey and an event on August 25th (see doc in Slack)

ACTION: Ted will ask if it can be posted on the blog

i. Trudy at SDC: pedestrian access point map along LRT, some problematic ones are on King St., lights are inconsistent, vibrations from tracks on walkers, wheelchairs and bikes crossing tracks can be dangerous

ACTION: Trudy will send it to Emily for midtownkw.ca blog

J. AGM: October 21st, 10AM-12PM
